Shaping and Surveying Missouri

Friday, March 29, 2019

Stoney Creek Hotel & Conference Center
2601 S. Providence Rd.
Columbia, MO 65203

.....

Dr. Dick Elgin, PS, PE
Archer-Elgin Engineering & Surveying, LLC
Rolla, MO

AGENDA

- 8:00 am** **Registration**
- 9:00 - 10:00 am** **Shaping Missouri**
How did Missouri get its odd shape? Who surveyed its boundaries? When? What's the boundary description for the State? Are the boundaries well described and fixed? Has there ever been a war over the State's boundaries? Were they ever contested? Answers to these questions (and more) during this interesting session.
- 10:00 am - 12 noon** **Missouri's Public Land Survey System in Five Hours**
Missouri's U.S. Public Land Survey System (USPLSS) is different when compared to the System as applied in all other states. (Its closest cousin is Arkansas.) The GLO instructions of the day, use of standard lines, section protraction, Missouri case law and the Missouri statutes relative to resurveys (in flux since 1814) all combine to make Missouri unique. The object of this course is to cover and summarize Missouri's USPLSS in five hours.
- 12 - 12:30 pm** **Lunch Break** (included with conference registration)
- 12:30 - 3:30 pm** **Missouri's Public Land Survey System continued**

Dick's book, "The U.S. Public Land Survey System for Missouri," will be used in this class. (Bring yours or purchase one at the meeting, \$75.00.) This seminar is well suited for LSITs, comity applicants for a Missouri PLS license, or PLS's who wish to earn some PDU's and expand their knowledge of Missouri's unique system.

The Missouri Board for Architects, Professional Engineers, Professional Land Surveyors and Professional Landscape Architects has reviewed and approved this course for 6.0 PDUs.

This course has been approved for 4.0 Missouri Standards Education Credits.

Missouri Society of Professional Surveyors and Central Chapter of MSPS **Shaping and Surveying Missouri**
